

**TEACHERS' TRAININGS**  
*(Capacity Building Programme)*

A famous writer once said – “only the people, who take learning growth and skill development into their own hand will go on to make effective leader tomorrow.”

With this thought in mind, a capacity building programme in life skill development was organised by Holy Family Convent School, Gohana in association with CBSE with the purpose of upgradation of teachers, on 13 April 2019 in school auditorium. The spokesperson for the day was Mrs. Bani Godara, Principal Indian Public School, Sultanpur, Hisar.

The session with widely interspersed activities, focused on how life skills need to be practiced, imbibed and lived rather than just being taught. Through role plays, audio-visual aids, reflections and discussions, Mrs. Godara gave, all 80 plus participants present, a broad perspective of life skills and tried to gear them up for change. Overall the workshop proved to be highly interesting and interactive, with the participating teachers committing to be harbingers of change.
